PROFESSIONAL SUMMARY

Support Engineer with 9+ years of experience supporting enterprise SaaS platforms, identity and authentication systems, cloud technologies, APIs and customer-facing applications. Experienced troubleshooting SSO, SAML, OAuth, Okta, Microsoft Entra ID, REST APIs and complex integrations across Windows, macOS, Chrome OS and cloud environments. Skilled in log analysis, SQL investigation, root cause analysis, browser-based application troubleshooting and collaborating with Sales, TAM, Engineering, Product and Customer Success teams to resolve complex technical issues and improve customer outcomes. Leverages AI tools such as Claude, ChatGPT and Microsoft Copilot to accelerate log analysis, root cause analysis and knowledge base creation, while following data-privacy and compliance requirements.

CORE TECHNICAL SKILLS

AI Tools: Claude, ChatGPT, Microsoft Copilot, Gemini, GitHub Copilot, Prompt Engineering, AI-Assisted Log Analysis and Troubleshooting, AI-Assisted Documentation

Identity & Authentication: SSO, SAML, OAuth, LDAP, Active Directory, Okta, OneLogin, Duo, Ping Identity, Microsoft Entra ID, Authentication Troubleshooting

Web Technologies & Integrations: HTTP/HTTPS, REST APIs, API Troubleshooting, API Integrations, Postman, Webhooks, Browser Developer Tools, Salesforce, Calendly, Zapier, Marketo, HubSpot, LTI, Real-Time and Asynchronous Integrations

Cloud & Infrastructure: Oracle Cloud Infrastructure (OCI), Grafana, Microsoft Azure, Google Cloud Platform (GCP), Docker, Jenkins, Splunk, ngrok, Cloud and On-Premises Environments

Databases & Data: SQL, PostgreSQL, NoSQL, Database Troubleshooting, Database Queries, Log Analysis, HL7 Data Exchange

Software Development & Testing: JavaScript, Node.js, HTML, CSS, jQuery, Git, Functional Testing, Test Planning, Test Cases, TestRail, ADB, Xcode, Mobile Application Debugging

UCaaS & CCaaS: Unified Communications, Contact Center, Voice, Video, Messaging, Call Routing, Call Quality Troubleshooting

Communications & VoIP: Cisco, Avaya, Mitel, Poly, Yealink, SIP, H.323, VoIP Configuration and Troubleshooting

Networking: TCP/IP, DNS, DHCP, VPN, Firewalls, Routers, Switches, Wireshark, FTP, SFTP, SMTP, IMAP, POP

Enterprise & Collaboration Tools: Jira, ServiceNow, Zendesk, Remedy, Confluence, Coda, Asana, Figma, Miro, Slack, Microsoft Teams, Zoom, Webex, Google Meet, 8x8

Endpoint Management: Encryption, SCCM, MDM, Desktop and Mobile Device Administration, Provisioning, Software Deployment, Endpoint Troubleshooting

Compliance & Healthcare: HIPAA, FedRAMP, ITIL, Healthcare Systems

Operating Systems: Windows, macOS, Linux, iOS, Android, Chrome OS

PROFESSIONAL EXPERIENCE

Senior Technical Support Engineer | 8x8 Inc., Remote, TX

Feb 2025 - Sep 2026

- Provided Tier 3 technical support for enterprise UCaaS and CCaaS platforms, troubleshooting authentication, integrations, APIs, voice, messaging and customer-environment issues.
- Investigated complex issues using Grafana, OCI logs and diagnostic data, using AI tools (Claude, ChatGPT) to summarize log output and SAML/OAuth traces and speed up root cause identification before communicating findings to Engineering and Product.
- Troubleshot SSO, identity, authentication, API and application-related issues across enterprise customer environments.
- Created and maintained troubleshooting guides, knowledge base articles and technical documentation, using AI-assisted drafting to improve self-service content and support efficiency.
- Collaborated with Engineering, Product, Sales and Customer Success teams to reproduce defects, validate fixes and improve customer outcomes.

Senior Product Support Specialist | Helium 10 / Pacvue, Remote, TX

May 2023 - Feb 2025

- Managed Tier 3 technical support cases, troubleshooting complex product issues and collaborating with Product teams on resolution.
- Used Browser Developer Tools to investigate browser-based application issues, inspect network requests, analyze client-side errors and troubleshoot API and authentication-related problems.
- Created troubleshooting documentation, FAQs, training materials and customer-facing help-center content, using AI tools to draft and refine articles and reduce turnaround time.
- Analyzed recurring customer issues, including AI-assisted trend analysis of ticket data, and provided voice-of-support feedback that contributed to product improvements.

Quality Engineer | Zoom Video Communications, Remote, KS

Jul 2021 - Feb 2023

- Created test plans and test cases for enterprise projects and coordinated testing activities across project timelines.

- Debugged iOS and Android applications using ADB, Xcode, device logs and diagnostic tools.
- Investigated defects and collaborated with Engineering to validate fixes and improve product quality.
- Reviewed technical design documents and quality specifications and provided feedback to improve product quality and functionality.

Technical Support Engineer | Zoom Video Communications, Overland Park, KS

May 2019 - Jul 2021

- Resolved over 95% of support cases without escalation while managing complex technical issues and adhering to SLA requirements.
- Supported iOS, Android, Windows and macOS SDK integrations, troubleshooting APIs, application behavior, configuration and developer integration issues.
- Investigated and reproduced technical defects, collaborated with Engineering and assisted in validating fixes.
- Created and improved technical documentation to support customer troubleshooting and consistent issue resolution.

Technical Solutions Analyst | Cerner Corporation, Kansas City, KS

Nov 2016 - May 2019

- Followed ITIL practices and collaborated with technical teams to resolve enterprise application issues.
- Investigated SQL/database records, LDAP configurations, application logs and HL7 healthcare integrations.
- Performed complex front-end and back-end troubleshooting involving application services, databases, authentication, logs and enterprise workflows.

IT Support Analyst | KAM Info Group, Houston, TX

Apr 2016 - Sep 2016

- Prepared and configured computers and equipment for new and existing employees, including operating system deployment, software installation and user setup.
- Provided technical support for hardware, software, operating systems and peripherals, resolving user issues in a timely manner with high customer satisfaction.

Deskside Support Intern | Reed Smith LLP, Houston, TX

Mar 2015 - Jan 2016

- Provided technical support for hardware, software, applications and end-user systems in a fast-paced professional services environment.
- Managed desktop and mobile provisioning, configuration, software installation and onboarding, delivering user training and guidance to minimize business disruption.

EDUCATION

- UT Coding Boot Camp - Certificate, Web Development, 2025
- Keller Graduate School of Management - Master of Information Systems Management, 2015
- Ambrose Alli University - Bachelor of Agricultural Economics, 2007
